Skills

Languages
- Python
- JavaScript
- HTML
- CSS

Frameworks
- Django
- React
- Tailwind
- Bootstrap

Data Bases
- SQLite3
- PostgreSQL

Tools
- DOCKER
- Git, GitHub
- Heroku
- Firebase
- Wsl2 - Linux

Languages

Native Spanish
English A2

Interests

Personal development, entrepreneurship, organisation and productivity, Korean and mixed martial arts, tricking, parkour, permaculture and ecology

Angel Riera
Full Stack Web Developer Django React

Experience

Full Stack Django Developer
Python en equipo [Jan 2022 - Still]
community of programmers united to improve their skills, developing web applications, with the use of agile scrum methodologies.

- Connect backend and frontend with React and Django
- Developing features with Django
- Layout With Tailwind
- Use of Docker for use and development
- use of different virtual environments
- Project documentation
- Scrum organization work

Studies

As a person who is passionate about learning, my thirst for learning does not fit the conventional methods, I consider myself self-taught since I have learned throughout this period through free online courses, educational material from blogs and videos, documentation, etc.

Subjects of courses carried out:
- database design and management: SQL - SQLite3
- Python framework: Django | Django Rest Framework
- networks: Rest Full API | HTTP protocols
- JavaScript Frameworks: React, Vue, and use of redux
- CSS: Grid - FlexBox
- CSS Frameworks: Tailwind, Bootstrap
- UX-UI Design
- Docker, Wsl2, deploy in Heroku, firebase, GitHub

my journey as a self-taught:
- https://github.com/RagAndRoll

Portfolio:
- https://ragandroll.github.io/RagAndRoll/

I have also developed applications in which I make use of the skills learned
- **Creation of websites frontend and backend with Django and react**
- **User authentication with Django**
- **Database management in Django**
- **create API with Django rest framework**
- **connect backend and frontend via API**
- **layout of websites and landing pages**
- **Deploy websites with Firebase Heroku and GitHub pages**

About Me

I am passionate about learning, and inspiring people to pursue their goals because I believe that the only way to improve the world is to improve ourselves by pursuing our goals and that in one way or another it becomes an achievement for the common good of humanity
